

SCREEN

- Hb at booking, 26–28 weeks, and 34 weeks; anemia if Hb <11 g/dL

FIRST-LINE MANAGEMENT

- Mild–moderate: Ferrous Ascorbate 100 mg elemental iron once daily + Folic Acid 500 mcg daily
- Continue 3 months after Hb normalises
- Hb <7 g/dL or beyond 34 weeks with moderate anemia: REFER (parenteral pathway)

COUNSEL

- Take iron away from tea/calcium; expect dark stools
